Empathy Map Canvas:

An empathy map is a simple, easy-to-digest visual that captures knowledge about a user's behaviours and attitudes. It helps the project team understand the Incident user's perspective, goals and challenges while designing the solution.

Reference: Empathy Map Canvas structure provided in the project reference document. The uploaded reference defines the canvas around Think & Feel, Hear, See, Say & Do, Pain and Gain. ■filecite■turn0file0■L8-L16■
